

Datalogics Now Offers Support for USAF Print FOSIs

Datalogics Offers A Single Source For All MIL-SPEC Composition Tools and Formats

With 35 years of experience in the typesetting industry and its pioneering roll in structured markup and SGML-based publishing, Datalogics has the expertise to design and implement world class technical publishing systems.

Datalogics FOSI Offerings

All program subscribers are required to subscribe to the Primary or Class A FOSI 38784STD-B. Additional Class B or C FOSIs that Datalogics has already enhanced can be added for an additional monthly fee. New FOSIs, that are not currently on the list can be implement for a one time flat fee and placed under Maintenance and Support.
