

## PRESS RELEASE

### **WebsitesForPrinters.com adds Adobe PDF JobReady module for print job submission**

---

**Chicago, IL, June 30, 2009** — Fargo, ND -based WebsitesForPrinters.com has extended their online storefront for printers with PDF-based print job submission capability powered by Adobe PDF JobReady, licensed through Datalogics. The Adobe PDF JobReady solution replaces the previous Jaws PDF Courier module for job submission.

"We are excited about offering this capability to our customers," states David Hultin, Managing Partner at WebsitesForPrinters.com. "We are passionate about helping our customers succeed, and fully understand that our business hinges upon the success of our customers. We are constantly evaluating our services to ensure we are meeting the demands of not only our customers (printers), but also our customers' customers (print buyers)."

Hultin continues, "As we searched for the best tools to provide to our customer base, we felt we could deliver superior job submission capabilities by building upon the Adobe PDF JobReady technology. We examined several options - including in-house development - but after talking to Datalogics and evaluating the software in-house, in the end we concluded that Adobe PDF JobReady and Datalogics represented the best technology and support combination. This will enable us to continue to deliver the very best products and services to our customers."

Adobe PDF JobReady, available from Datalogics, is a web-to-print toolkit, leveraging real Adobe technology, which enables developers to build PDF-based applications that deliver consistent, reliable print-ready PDF files, eliminating the most common file submission problems.

WebsitesForPrinters.com specializes in providing printers with the sales, marketing, and e-commerce tools printers need to do business online. In addition to PDF-based job submission using Adobe PDF JobReady from Datalogics, websites provided by WebsitesForPrinters.com also include simple yet powerful content management tools, podcasting, variable data, dynamic online pricing calculators, an integrated outbound e-mail newsletter, and e-commerce functionality.

#### **About Datalogics**

Chicago-based Datalogics, Incorporated, an Adobe Portfolio Company and a leading provider of innovative document technologies, has dedicated over 40 years to delivering the highest quality software technologies and services which meet the most demanding customer needs. Datalogics is the premier source for Adobe PDF developer technologies, including the Adobe PDF Library, Adobe Normalizer, Adobe PDF JobReady, and the Adobe PDF Print Engine.
