

# Resolving Common PDF Problems

Before They Break Your Workflow

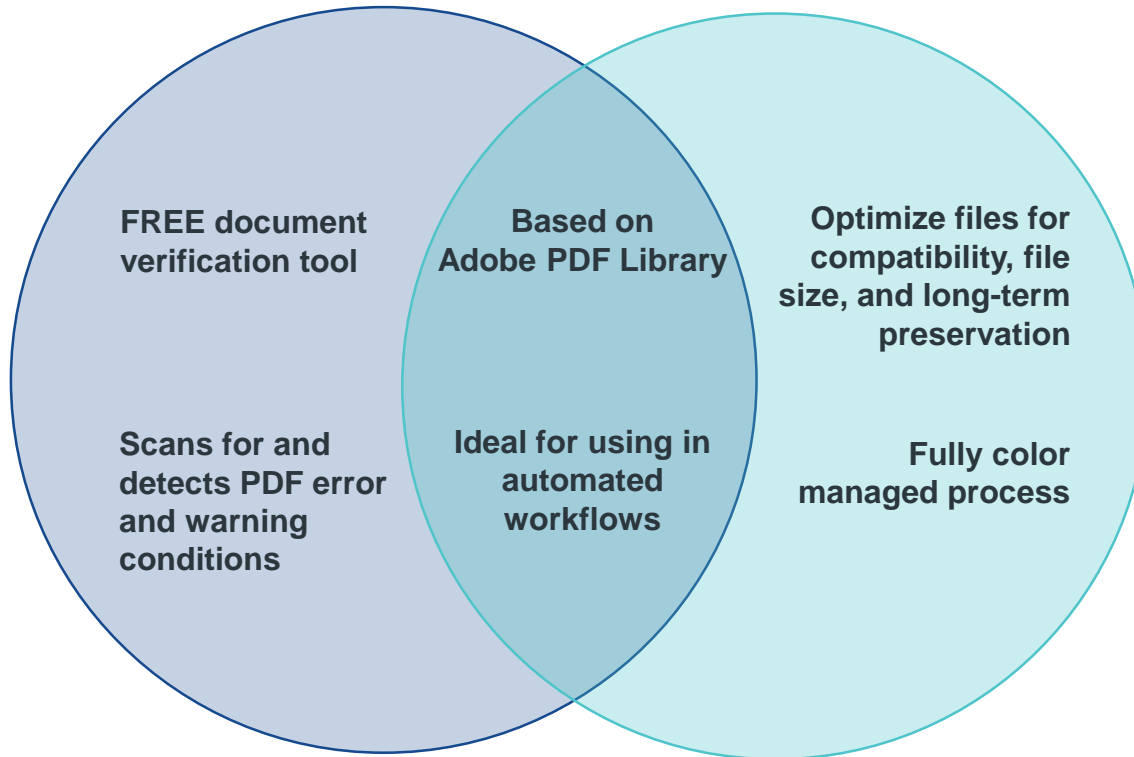

# Tools Used

## PDF CHECKER

## PDF OPTIMIZER

# Common Problems with PDFs

## TRANSPARENCY

Often used in PDF documents to present unique visuals, and reduce file size

Can cause problems in workflows like printing

Support varies across PDF tools

## ADVANCED IMAGE TYPES

JPEG2000

JBIG2

Unsupported images will often show incorrectly or will not show at all

## BAD OR BROKEN DOCUMENTS

Documents with syntax errors can cause errors in your workflow

PDF CHECKER CAN  
DETECT THESE PROBLEMS

**BEFORE**

THEY IMPACT  
YOUR WORKFLOW

# Find PDF Problems

**Detect bad PDF documents before they cause problems in your workflow**

- Documents that don't open
- Documents with missing fonts
- Documents with unsupported features

**Notify users that there is a problem with their document**

- PDF CHECKER provides a detailed report

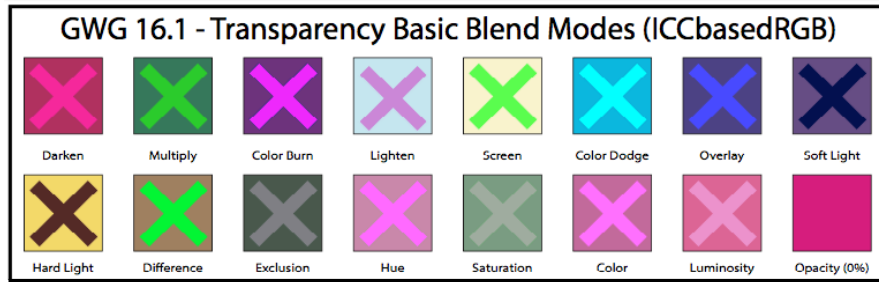

# PDF OPTIMIZER

- **A server-based utility**
- **Fully customizable**
- **Based on the Adobe PDF Library**
- **Reduces PDF file size**
- **Archives PDF files**
- **Transforms PDF documents to better fit your workflow**
